	Policy Number	<b>01-01</b>
	Effective Date	<b>09-29-10</b>
	Revision Date	<b>DRAFT</b> <b>03-15-18</b>
Title: <b>Quality Improvement</b>		Functional Area: <b>Organization</b>
Approved By: John Onate, MD Medical Director		

**Policy:**

Clinic Services leadership is committed to improving services for enrollees. In order to evaluate performance, indicators are created, monitored, analyzed, and operations are adjusted in order to enhance service provision.

**Procedures:**

**A. Quality Improvement (QI) Plan**

1. A QI Plan will be approved annually by the Health Center Management Team, the Quality Improvement Committee (QIC), and the Co-Applicant Board.
2. See attached QI Plan.

**B. QIC**

1. Health Center QIC will be comprised of the following:
  - a. Project Director
  - b. Medical Director
  - c. Pharmacy Director
  - d. Clinic Manager Representative
  - e. Physician Representative
  - f. Nursing Supervisor Representative
  - g. Program Planner
  - h. Administrative Services Officer (Data Reports)
  - i. Others as indicated.
2. The scope and responsibilities include developing performance indicators, analyzing data and making recommendations for change. The QIC will review trended quality performance data, identify opportunities to improve client care and service, provide policy decisions, review, and make recommendations regarding the annual Quality Improvement Plan.
3. The QIC will meet monthly or not less than ten (10) times per year.
4. A Quality Improvement Report will be provided to the Co-Applicant Board at least quarterly by the designated Project Director or designee.
5. See QI Plan for additional details.

Quality Improvement Plan

2018

Department of Health Services  
Primary Health Division  
March 15, 2018

## OVERVIEW

Sacramento County Health Center has a systematic approach to quality measurement and quality improvement. The Quality Improvement (QI) Plan outlines the process which includes methods to monitor performance and implement changes in practice when necessary, with follow up measurement to determine whether new practices positively affected performance.

Review of data is essential to the QI process. Data can include but is not limited to: performance indicators, satisfaction surveys, member concerns (complaints, grievances), service utilization, medication errors, chart review, etc. Compliance and risk management are also integral to quality management. The Health Center is a public entity and has separate units or departments for Compliance (HIPAA), risk management, contracts, fiscal, safety, information management, and counsel.

### **Health Center Mission**

- Improved health outcomes through high quality service with a patient centered focus.

### **Values**

- Partnership
- Accountability
- Innovation
- Integrity

### **Goals**

- Effective clinical outcomes.
- Engaging and effective patient experience.
- Create an ideal environment for providers, clinical learners, faculty, and staff.
- Develop indicators for tracking QI projects.
- Operates within fiscal parameters.

### **Guiding Principles for Service Provision**

*There is:*

- Access to care for routine, same day, and new members.
- Respect, sensitivity, and competency for populations served.
- A safe and attractive environment for clients, visitors and staff.
- A work culture that acknowledges all team members provide essential high quality services.
- Effective communication and information sharing.
- Data informed practices.
- Continuous improvement.

## PROGRAM STRUCTURE

### **Quality Improvement Committee (QIC)**

1. The QIC is established to provide operational leadership and accountability for continuous quality improvement activities.
2. QIC meets at least monthly or not less than ten (10) times per year.

3. The QIC participants represent different disciplines and service areas within Health Center. This includes: the Medical Director, Pharmacy Director, Project Director, Program Planner, designated Administrative Services Officer (Reports), and various representatives for Clinics, physicians, and nursing.
4. QIC responsibilities include:
  - a. Develop and adopt the annual QI Plan that includes a specific approach to Continuous Quality Improvement (CQI).
  - b. Establish measureable objectives and indicators of quality based upon identified priorities.
  - c. Monitor data indicating progress toward goals on these indicators.
  - d. For indicators out of target range, develop actions and strategies for Health Center Management Team implementation.
  - e. Report to the Co-Applicant Board on quality improvement activities on a regular basis.
5. Management Team responsibilities include:
  - a. Implement strategies and provide education to staff.
  - b. Report back to the QIC.
6. Health Center Co-Applicant Board:
  - a. Authorities are outlined in Clinic Services P&P 01-02.
  - b. Delegates authority and responsibility for the QI Program to the QIC.
  - c. Reviews, evaluates, and approves the Quality Improvement Plan annually and receives quarterly reports on identified quality indicators.

## PERFORMANCE INDICATORS & ANALYSIS

**Performance Indicators** are identified and measured part of the quality improvement initiatives. They:

- Have defined data elements.
- Have a numerator and denominator available for measurement.
- Can detect changes in performance over time and allows for a comparison over time.

**Outcomes / Process Measurements** are those that:

- Identify measureable indicators to monitor the process or outcome.
- Collect data for specified time period, or ongoing.
- Evaluated against a threshold or target.
- Evaluate the effectiveness of defined action(s).

**Data Analysis is used to establish:**

- Priorities for improvement.
- Actions necessary for improvement.
- Whether process changes resulted in improvement.
- Performance of existing key processes.

**CQI** Clinic Services utilizes a Plan–Do–Study–Act (PDSA) for focused intervention. See PDSA Work Sheet.

<b>PLAN</b>	Identify area target not met Identify most likely cause(s) through data review Identify potential solution(s) and data needed for evaluation
<b>DO</b>	Implement solution(s) and collect data needed to evaluate the solution(s)
<b>STUDY</b>	Analyze the data and develop conclusions
<b>ACT</b>	Recommendations for further study / action. This depends upon results of the analysis. If the proposed solution was effective, decisions are made regarding broader implementation including the development of a communication plan, etc. If the solution was not effective, QIC returns to planning section.

**COMMUNICATION AND COORDINATION**

**Communication**

Problems may be identified from data, staff, managers, concerns, audits, or agency feedback.

Managers are responsible to:

1. Share the plan including indicators and targets with staff at all levels.
2. Include multidisciplinary staff from all areas of operations in problem identification, developing strategies, implementing interventions, and review of data analysis.
3. Provide information alerts or policy and procedure guidance.
4. Imbed key priorities into the architecture of Health Center policies, training, and other core materials.

**CONFIDENTIALITY AND PRIVACY OF PERSONAL HEALTH INFORMATION**

All data and recommendations associated with quality management activities are solely for the improvement of client care. As such, all material is confidential and is accessible only to those parties responsible for assessing quality of care and service. All proceedings, records, data, reports, information and any other material used in the quality management process which involves peer review shall be held in strictest confidence and considered peer review protected.

The Health Center will minimize use of identifiable protected health information for quality measurement to protect it from inappropriate disclosure. Reports for committee review regarding data analysis and trending shall not disclose a client’s protected health information. Use of aggregate data or reports will be maintained in minutes.

Personal Health Information obtained as a result of a client complaint or appeal is kept in a secure area and is only made available to those who have a need to know. Computer access to personal health information about a client’s complaint or appeal is limited by a pass code for only those who need access.

Clinic Services Policies & Procedures Manual and the County Office of Compliance have extensive policies and procedures for health information management and protected health information.

## 2018 QUALITY IMPROVEMENT GOALS AND OBJECTIVES

### Care Coordination

- Goal: Improve care coordination of members with high service utilization, or who require services across systems.
- Objective: Develop and implement a care management policy & procedure.

### Co-Applicant Board Composition

- Goal: Meet the 51% consumer members requirement.
- Objective 1: Revise and update the Clinic Services P&P 01-04 CAB Members.
- Objective 2: Develop strategies to meet and sustain this goal.

### UDS Measures

- Goal: Improve performance on UDS measures. Progress will be incremental due to change in E.H.R. and need for staff training.
- Objective 1: Train providers on OCHIN documentation work flows.
- Objective 2: Select Measure(s), use 2017 base, and review incremental progress. Possible measures to consider:
  - Adults (18 – 75 years) with Diabetes with Hgb1c less than 8 due to high number of patients with diabetes.
  - Adults (50 – 75 years) who had colorectal screening.
  - Women (ages 23 – 64) who received cervical cancer screening.
  - Prenatal care patients / early entry into prenatal care / birthweights.
  - Two year olds fully immunized.
  - Patients (age 12 and older) screened for depression and if positive, had follow-up plan documented.

### Patient Experience

- Goal: Promote a positive and effective patient experience.
- Objective 1: Access to care meets standards per policy 90% of the time.
- Reduce No Show rate incrementally.
- Minimally achieve 80% satisfaction on identified key elements of patient survey.

### Operations:

- Goal: Health Center stays within operating budget and revenue targets per review of the budget to actuals report.
- Objective: Develop efficient and effective process work flows to maximize team work.
