Purpose:

- A. It is the sole responsibility of the provider agency to make available to their Paramedics sufficient inventory to offer Advanced Life Support (ALS) services, at all times while in service, as defined by both the state Emergency Medical Services Authority (EMSA) scope of practice and the Sacramento County Emergency Medical Services Agency (SCEMSA) optional scope of practice.

**Authority:**

- A. California Health and Safety Code, Division 2.5
- B. California Code of Regulations, Title 22, Division 9

**Policy:**

- A. All Paramedics, who at the time of a medical incident are in service and employed in the capacity of a Paramedic by their provider agency, shall have all the necessary medications, equipment, and materials to render an ALS level of service
- B. It is the sole responsibility of the provider agency to have all the necessary medications, equipment, and materials available for the Paramedic, who at the time of a medical incident is in service and employed in the capacity of a Paramedic
- C. Provider agencies may choose to NOT supply non-transporting ALS units with those items indicated by an asterisk (\*) on the SCEMSA Inspection Guide
- D. Any deficiencies in the quantity of sufficient materials to offer ALS service involving patient care, whether or not the deficiency affected patient care, as defined by both the EMSA scope of practice and the SCEMSA optional scope of practice, shall be reported, in writing, to SCEMSA within seven (7) days of the occurrence
- E. SCEMSA shall conduct periodic ALS unit inspections to validate compliance
- F. The SCEMSA Inspection Guide is not an all-encompassing list nor indicates quantities based on the Providers' geographic response areas and responsibility for identifying sufficient quantities to deliver the necessary care specified in the SCEMSA Policies
