It is important to get the updated bivalent booster, we will have new strains of COVID-19 every season. You can now start the vaccine series with the bivalent vaccine.</li> <li>• We are still experiencing some outbreaks in the Long Term Care Facilities.</li> <li>• RSV cases have stabilized and are trending down. It has become a reportable condition.</li> <li>• You can visit the Sacramento County dashboard to get rates for COVID, flu and RSV. <a href="https://dhs.saccounty.gov/PUB/Pages/Epidemiology/SP-Epidemiology.aspx">https://dhs.saccounty.gov/PUB/Pages/Epidemiology/SP-Epidemiology.aspx</a></li> <li>• We currently have enough hospital beds for children's cases of flu and RSV but it was noted that many stores have a shortage in cold and flu medications for children.</li> </ul>
MCAH Update	<p>Presented by Leesa Hooks</p> <ul style="list-style-type: none"> <li>• CDPH has an updated data dashboard with over 50 indicators of local and statewide data. Data can be broken out by ethnicity, education level, age, location, etc.</li> <li>• NFP will receive and increase in allocation and we are hoping to bring on a mental health professional, 2 new PHNs and a senior PHN.</li> <li>• The allocation for BIH has also increased and we hope to be able to continue to contract with Mutual Assistance Network and the Child Abuse Prevention Center, they have been doing great work.</li> <li>• We are still waiting to get more information around CHDP and how it will sunset and what the plan will be for wrap around services.</li> <li>• CPSP, First 5, The Child Abuse Prevention Center, and The Department of Children, Families and Adult Health are working together to amplify SSB 3.0 which will provide Safe Sleep education with CPSP providers. FIMR reviews continue but are now funded by CAPC Children's Trust fund as Title V dollars are no longer earmarked for FIMR review. SB 65 is now the driver for FIMR reviews and specifies which discipline can participate on the review team. FIMR/CDRT recommendations to BOS will be released soon.</li> </ul>
